

TEST PLAN - Swag Labs E-commerce Application

1. PROJECT OVERVIEW

Application Name: Swag Labs Demo Store

Application URL: <https://www.saucedemo.com>

Test Type: Manual Functional Testing

Tester Name: JAIMEENA R

2. OBJECTIVE

The objective of this testing project is to:

- Verify all core functionality works correctly across different user types
- Identify and document bugs/defects
- Test error handling and edge cases
- Ensure proper user experience across 6 different user accounts

3. SCOPE (What I WILL test)

MODULE	FEATURES TO TEST
Login	Valid credentials, invalid credentials, locked user, empty fields, error user
Product Catalog	Display products, product images, product details, sorting (4 types)
Shopping Cart	Add items, remove items, update quantities, cart badge count
Checkout	Enter information, validation errors, complete purchase, total calculation
Logout	Successful logout, session security

4. OUT OF SCOPE (What I will NOT test)

AREA	REASON
Performance/Load testing	Requires specialized tools
Security testing (SQL injection, XSS)	Beyond manual testing scope
Mobile responsive testing	Testing only on desktop browser
Payment gateway integration	Demo doesn't process real payments
API testing	Backend APIs not exposed

5. TEST ENVIRONMENT

COMPONENT	SPECIFICATION
Operating System	MacOS
Browser	Google Chrome Version 120+
Screen Resolution	1920x1080
Internet	Stable broadband connection
Tools	Google Sheets, Google Docs, Snipping Tool

6. TEST DATA

All 6 User Accounts for Testing:

USERNAME	PASSWORD	PURPOSE IN TESTING
standard_user	secret_sauce	Positive testing - normal functionality
locked_out_user	secret_sauce	Negative testing - locked account error
problem_user	secret_sauce	Bug detection - broken images, cart issues
performance_glitch_user	secret_sauce	Performance observation - slow loading
error_user	secret_sauce	Error handling testing
visual_user	secret_sauce	Visual UI validation

All 6 Products for Testing:

PRODUCT NAME	PRICE	USED IN TEST CASES
Sauce Labs Backpack	\$29.99	Cart, Checkout, Details page
Sauce Labs Bike Light	\$9.99	Cart multiple items, Sorting

Sauce Labs Bolt T-Shirt	\$15.99	Checkout completion
Sauce Labs Fleece Jacket	\$49.99	Price sorting high-low
Sauce Labs Onesie	\$7.99	Price sorting low-high (lowest)
Test.allTheThings T-Shirt (Red)	\$15.99	Sorting A-Z and Z-A

Checkout Test Data:

FIELD	VALID DATA	INVALID DATA FOR NEGATIVE TESTING
First Name	John	(empty), 123, @#\$%
Last Name	Doe	(empty), 123, @#\$%
Postal Code	12345	(empty), ABCDE, 00000

7. DELIVERABLES (What I will produce)

- [x] Test Plan (this document)
- [] Test Cases (minimum 25)
- [] Bug Reports (minimum 4)
- [] Requirements Traceability Matrix (RTM)
- [] Test Summary Report
- [] Screenshots of all bugs found

8. TEST SCHEDULE

ACTIVITY	DURATION	TARGET DAY
Test Plan creation	45 minutes	Day 2
Test Cases writing	2 hours	Days 3-4
Test Execution	2 hours	Day 5
Bug Reporting	1 hour	Day 6
Final Reports	1 hour	Day 7

9. PASS/FAIL CRITERIA

STATUS	DEFINITION
PASS	Actual result exactly matches expected result
FAIL	Actual result does NOT match expected result
BLOCKED	Cannot execute due to technical issue

10. RISKS AND MITIGATION

RISK	MITIGATION
Website may be dow	Document issue and note in report

Internet disconnection	Work offline, reconnect later
Browser cache issues	Clear cache before testing
