

BUG REPORT 001

Bug Summary

Product images show broken icons when logged in as problem_user on inventory page

Environment

- URL: <https://www.saucedemo.com>
- Browser: Chrome 120
- OS: MacOS
- User Account: problem_user / secret_sauce

Severity & Priority

- Severity: Medium
- Priority: Medium

Steps to Reproduce

1. Go to <https://www.saucedemo.com>
2. Login with username: problem_user
3. Enter password: secret_sauce
4. Click Login
5. Observe the inventory page product images

Expected Result

All 6 product images should load properly showing product pictures

Actual Result

Multiple product images appear as broken image icons. Specifically:

- Sauce Labs Backpack shows broken image
- Sauce Labs Bike Light shows broken image
- Sauce Labs Bolt T-Shirt shows broken image

The remaining 3 products (Fleece Jacket, Onesie, Red T-Shirt) display images correctly.

04_Screenshots/BUG_001.png

Additional Notes

- This issue does NOT occur with standard_user
- Only affects problem_user account
- This is a known intentional bug in Swag Labs for testing purposes
- Users can still see product names and prices, but visual experience is degraded

BUG REPORT 002

Bug Summary

Product details page shows broken image when clicking from inventory page as problem_user

Environment

- URL: <https://www.saucedemo.com>
- Browser: Chrome 120
- OS: MacOS
- User Account: problem_user / secret_sauce

Severity & Priority

- Severity: Medium
- Priority: Medium

Steps to Reproduce

1. Login to <https://www.saucedemo.com> with username: problem_user, password: secret_sauce
2. On inventory page, click on "Sauce Labs Backpack" image or name
3. Observe the product details page image

Expected Result

Product image on details page should load properly showing the product picture

Actual Result

The details page shows a broken image icon where the product picture should be. Text, price, and buttons are visible but image is missing.

Screenshot

04_Screenshots/BUG_002.png

Additional Notes

- This issue is related to BUG_001 (inventory page broken images)
- Only affects problem_user account
- Does NOT occur with standard_user
- Affects all products when clicked by problem_user
- Degrades user experience for product browsing

BUG REPORT 003

Bug Summary

Remove button on inventory page does not work for problem_user - cannot remove items directly from inventory page

Environment

- URL: <https://www.saucedemo.com>
- Browser: Chrome 120
- OS: MacOS
- User Account: problem_user / secret_sauce

Severity & Priority

- Severity: High
- Priority: High

Steps to Reproduce

1. Login to <https://www.saucedemo.com> with username: problem_user, password: secret_sauce
2. On inventory page, click "Add to cart" on Sauce Labs Backpack
3. Observe the button changes from "Add to cart" to "Remove"
4. Click the "Remove" button on the inventory page (DO NOT go to cart page)
5. Observe the button and cart badge

Expected Result

After clicking "Remove" on inventory page:

- Item should be removed from cart
- Cart badge should decrease from 1 to 0
- Button should change back from "Remove" to "Add to cart"

Actual Result

After clicking "Remove" on inventory page:

- Button remains as "Remove" (does not change back to "Add to cart")
- Cart badge still shows "1"
- Item is NOT removed from cart
- User must go to cart page to remove items

Screenshot

04_Screenshots/BUG_003.png

Additional Notes

- This issue only occurs with problem_user
- Works correctly with standard_user (remove works from inventory page)
- The remove button works fine from the cart page for problem_user
- This forces users to navigate to cart page to remove items, creating extra steps
- This is a critical UX bug for e-commerce functionality

BUG REPORT 004

Bug Summary

locked_out_user receives account locked error and cannot access the application

Environment

- URL: <https://www.saucedemo.com>
- Browser: Chrome 120
- OS: MacOS
- User Account: locked_out_user / secret_sauce

Severity & Priority

- Severity: High
- Priority: High

Steps to Reproduce

1. Go to <https://www.saucedemo.com>
2. Enter username: locked_out_user
3. Enter password: secret_sauce
4. Click Login button

Expected Result

User should be able to login successfully and access the inventory page showing products

Actual Result

Error message appears immediately after clicking Login:

"Epic sadface: Sorry, this user has been locked out."

User remains on login page and cannot proceed to any functionality.

Screenshot

04_Screenshots/BUG_004.png

Additional Notes

- This completely blocks the user from accessing the application
- No workaround available for this user account
- In a real application, this would require customer support intervention
- This is intentional in Swag Labs for testing locked account scenarios
- From a testing perspective, this validates that locked accounts are properly rejected
