

TEST SUMMARY REPORT - Swag Labs Demo Store

1. EXECUTIVE SUMMARY

Manual functional testing was completed on Swag Labs demo store (<https://www.saucedemo.com>). Total of 31 test cases were executed across 5 modules: Login, Product Catalog, Cart, Checkout, and Logout. Testing covered 6 different user accounts.

Overall Pass Rate: 87%

2. TEST METRICS

METRIC	COUNT
Total Test Cases	31
Passed	27
Failed	4
Blocked	0
PASS RATE	87%

3. MODULE-WISE BREAKDOWN

MODULE	TEST CASES	PASSED	FAILED	PASS RATE
Login	7	6	1	86%
Product Catalog	8	6	2	75%
Cart	6	5	1	83%
Checkout	7	7	0	100%
Logout	2	2	0	100%

4. BUG SUMMARY

BUG ID	SEVERITY	PRIORITY	MODULE	DESCRIPTION	STATUS
BUG-001	Medium	Medium	Product Catalog	Broken images on inventory page for problem_user	Open
BUG-002	Medium	Medium	Product Catalog	Broken image on details page for problem_user	Open
BUG-003	High	High	Cart	Remove button on inventory page does not work for problem_user	Open
BUG-004	High	High	Login	locked_out_user cannot login - account locked error	Open

Total Bugs Found: 4

- Critical: 0
- High: 2
- Medium: 2
- Low: 0

5. TEST COVERAGE

MODULE	COVERAGE
Login	Positive, negative, edge cases (empty fields, locked user)
Product Catalog	Display, images, details page, 4 sort types
Cart	Add single, add multiple, remove, badge count, continue shopping
Checkout	Info entry, validation (empty fields), complete purchase, cancel
Logout	Successful logout, session security

6. TEST ENVIRONMENT

COMPONENT	SPECIFICATION
URL	https://www.saucedemo.com
Browser	Google Chrome 120
OS	MacOS
Screen Resolution	1920x1080

7. TEST DATA USED

USER ACCOUNT	PURPOSE
standard_user	Positive testing - normal functionality
locked_out_user	Negative testing - locked account (BUG-004)
problem_user	Broken images, remove button (BUG-001, BUG-002, BUG-003)
performance_glitch_user	Performance observation - slow login
error_user	Error handling testing
visual_user	Visual UI validation

8. RECOMMENDATIONS

PRIORITY	RECOMMENDATION	BUG REFERENCE
High	Fix locked_out_user login issue - prevents user access	BUG-004
High	Fix remove button on inventory page for problem_user	BUG-003
Medium	Fix broken product images for problem_user	BUG-001, BUG-002

9. CONCLUSION

The application is generally stable for standard_user with 87% overall pass rate. All core functionality for standard_user works as expected including login, product viewing, sorting, cart operations, checkout, and logout. However, critical bugs exist for problem_user (remove button on inventory page not working, broken images) and locked_out_user (cannot login at all). These issues should be addressed before release. The application is ready for release only after fixing the high severity bugs.

Next Steps:

- High severity bugs (BUG-003, BUG-004) to be fixed before release
- Regression testing to be performed after bug fixes
